

Framed

This option provides a durable and affordable design and are available in swing door styles or sliders.

Semi-Frameless

This option has less metal than framed shower enclosures. It does not have a metal frame around the door and is available in a full range of finish and glass options.

Cardinal Tru-Fit S E R I E S

With the TruFit series, heavy glass can be used with fiberglass stalls. Cardinal's custom jambs and channels allow for easy on site adjustment to the wall and curb conditions.

Cardinal Uptown S E R I E S

The uptown series has eliminated the metal jamb between the door and panel, giving a more open feeling shower.

Cardinal Uptown Grand S E R I E S

Uptown grand series has eliminated the header altogether and eliminated the 3/8" glass door, giving an upscale looking shower at a very reasonable price.

Frameless Glass Shower Enclosures

There are many types of glass shower enclosures and plenty of ways to make them your own. The choices are almost endless with Walk-in, Steam, French-doors, Transoms, and a variety of hardware/finish options.

**GUARDIAN
SHOWERGUARD®**

**ShowGuard glass is permanently sealed to
look like new for a lifetime.**

ShowGuard coated glass features patented technology that keeps hard water, scale and soap scum from permanently sticking to its surface. Proven to outperform spray-on and wipe-on products in independent testing, its invisible barrier never needs reapplication. The permanent, protective coating relieves you of daily upkeep and special care—common household agents and periodic cleaning are all you need to keep ShowerGuard coated glass looking new. ShowerGuard glass has a lifetime limited warranty.
